DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims recite "said arbitration unit supplies said laser beam to one of said laser positioning units" which is not clear. The arbitration unit does not supply the laser beam because it is not a laser device. Furthermore, the deflection unit (AOM) deflects laser beam from the laser oscillator to the positioning units, according to Fig. 1, NOT the arbitration unit. The arbitration unit only controls the deflecting unit (AOM) and positioning units.

Art Unit: 2828

Allowable Subject Matter

3. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
